[Dico Soil Tables.xlsx](#)
[Dico All June 2016 data.xlsx](#)

Mike, I received the data from the Dico sampling and put it all in the data base. I've included a spread sheet with all the data (Except the dioxin data, which you are still trying to get from the lab) and several tables. I'm going to forward you the original e-mail I got from the lab as well.

If you want any other tables, I can literally create them in about 5-15 minutes once I know what you want on the tables. So, if you have something in mind, please let me know and I can pull the data for you very quickly.

If you have any questions. Please let me know. Thanks!
